migiwa amime

This bowl describes restless waves. It creates a beautiful contrast against the table, reflecting the light.

Innovation meets Tradition

It carries the time honoured tradition and history of Takaoka Copperware with exceptional quality. After laser-processed at our factory, the products are meticulously hand crafted using technology over four hundred years old.

migiwa

A hammering craftsman beats a thin iron plate by hammer rhythmically piece by piece to form. Although the product is made of iron, its surface is smooth by being pounded and coated with lacquer.
