Kusunoki

Made in Takaoka-shi, Japan

weaving the tradition with the novelty

伝統とともにある暮らし

銀 雅 堂 
GIN GA DO

Takaoka is well known as the largest production centre of bronze ware in Japan. The city has top-quality processing techniques, from polishing to colouring. All the skills required at each step can be found here. The technique passing down the generations over 400 years create variety of products from small vases to big statues. Under such a circumstance, our samurai helmets, kabuto, are manufactured using painstaking technique.

KAB2-01

楠木正成公

Kusunoki

Size: H18.5 x W19.5 cm
Accessory: a cushion
Material: zinc-based alloy

As a brilliant tactician and strategist, Kusunoki Masashige is a 14th-century samurai who fought for Emperor Go-Daigo in his attempt to wrest the control of Japan from the Kamakura shogun, and later called a patriotic hero.

Frontal decoration, maedate, is a long sword and deer-shaped horns.

KAB2-02

源義経公

Minamoto

Size: H15.5 x W19.5 cm
Accessory: a cushion
Material: zinc-based alloy

Minamoto no Yoshitsune is a 12-century samurai who is considered one of the greatest warriors of his era, and one of the most popular samurai in the history of Japan. His older brother Minamoto founded the Kamakura shogunate.

Frontal decoration, maedate, is big deer-shaped horns.

Kabuto during Sengoku Period (Warring States Period)

Kabuto is a type of helmet used by ancient Japanese warriors, samurai. As this nation had run by Samurai for over 600 years, the helmets were regarded as extremely important items in battle. Not only did they protect warriors, the helmets displayed the might of samurai. Although they are no longer used today, they are still viewed as symbols of protection and displayed on Boys' Day (5th May) to pray for a life free of accidents and illness.

KAB1-01

黒田官兵衛

Kuroda

Size: H11 x W14 cm
Accessory: a cushion
Material: zinc-based alloy, brass

Kuroda Kanbei is renowned as a man of great ambition, he was a chief strategist under Toyotomi Hideyoshi, the Japan's second "great unifier". Frontal decoration, maedate, is "Fujidomoe" that is the family crest for Kuroda.

KAB2-03

真田幸村公

Sanada

Size: H15.5 x W14 cm
Accessory: a cushion
Material: zinc-based alloy, brass

Sanada Yukimura is a samurai of the Sengoku period. He was especially known as the leading general on the defending side of the Siege of Osaka. He was called "a hero who may appear once in a hundred years" and "crimson demon of war". His kabuto is famous for red with deer-shaped horns.

KAB2-04

伊達政宗公

Date

Size: H12 x W17 cm
Accessory: a cushion
Material: zinc-based alloy, brass

Date Masamue is a cocky warlord, known as the Dokugan Ryu (One-Eyed Dragon). Although he was a patron of the arts, he was also an aggressive and ambitious daimyo. His kabuto is famous for the crescent moon.
